

NEED HELP MANAGING YOUR ORACLE TECHNOLOGY SUITE? WITH QSOLVE, CONSIDER IT SOLVED.

In today's business environment, the effective implementation, management and optimization of your Oracle environment is more critical than ever. The success of your business depends on everyday procedures involving order processing, invoicing, customer service, sales and more – all of which are only as efficient as the technology infrastructure that supports them.

Choose a partner that has the experience and expertise to deliver measurable results – lowering costs and improving efficiencies – in the face of your most challenging and complex IT issues. QSolve has helped businesses in a variety of industries to:

- Optimize and align IT infrastructure with business processes and goals
- Tune application and database performance
- Orchestrate architecture design and capacity planning
- Accelerate implementations, upgrades and migrations
- Mitigate project risk while maintaining high standards of quality
- Lower total cost of ownership

ABOUT US

Based in Schaumburg, Illinois, QSolve has been providing comprehensive, cuttingedge Oracle solutions and services since 2005. Our expertise covers the entire Oracle technology suite, helping clients to improve upon business processes from customer management to manufacturing, all through the alignment and

optimization of their technology systems. When you choose to partner with QSolve, our technical and business expertise is just the beginning. You get a partner who:

- **Listens carefully** to your unique needs before responding with a thoughtful solution, rather than offering a canned, one-size-fits-all answer.
- **Delivers value-added services** and measurable results through consultative collaboration.
- **Is actively involved** in the Oracle community, sharing knowledge and expertise through speaking engagements, helping to organize and attending local and international conferences, and contributing innovative thinking through white papers and blogs.
